

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1 **Claim 1 (Currently amended):** An electronic apparatus,
2 comprising:
3 a first casing and a second casing which are foldable
4 to each other along a bearing portion,
5 wherein a front face and a back face of one of the first
6 casing and the second casing are formed with respective sound
7 emission holes that are ~~opposed to~~ aligned with each other;
8 and
9 wherein a speaker is provided at a position
10 corresponding to the sound emission holes, and further
11 wherein a front face of the other of the first casing and the
12 second casing is formed with a through hole that is aligned
13 with the sound emission holes in a state that the first
14 casing and the second casing are folded together.

1 **Claim 2 (Canceled)**

1 **Claim 3 (New):** The electronic apparatus as set forth in claim
2 1, further comprising a display and a keypad, wherein the
3 display is located on one of the first casing and the second

4 casing and the keypad is located on the other of the first
5 casing and the second casing.

1 **Claim 4 (New):** The electronic apparatus as set forth in claim
2 3, wherein the sound emission holes and the display are
3 located on the same one of the first casing and the second
4 casing.

1 **Claim 5 (New):** The electronic apparatus as set forth in claim
2 3, wherein the through hole and the keypad are located on the
3 same one of the first casing and the second casing.

1 **Claim 6 (New):** An electronic apparatus, comprising:
2 a first casing and a second casing which are foldable
3 to each other along a bearing portion,
4 a display which is located on the first casing;
5 a keypad which is located on the second casing;
6 wherein a front face and a back face of the first casing
7 are formed with respective sound emission holes that are
8 aligned with each other and are located nearer to the bearing
9 portion than the display; and
10 wherein a speaker is provided at a position
11 corresponding to the sound emission holes.

1 **Claim 7 (New):** The electronic apparatus as set forth in claim
2 6, wherein a front face of the second casing is formed with
3 a through hole that is opposed to the sound emission holes
4 in a state that the first casing and the second casing are
5 folded together.

1 **Claim 8 (New):** An electronic apparatus, comprising:
2 a first casing and a second casing which are foldable
3 to each other along a bearing portion,
4 a display which is located on the first casing;
5 a keypad which is located on the second casing;
6 wherein a front face and a back face of the second
7 casing are formed with respective sound emission holes that
8 are aligned with each other; and
9 wherein a speaker is provided at a position
10 corresponding to the sound emission holes.

1 **Claim 9 (New):** The electronic apparatus as set forth in claim
2 8, wherein a front face of the first casing is formed with
3 a through hole that is opposed to the sound emission holes
4 in a state that the first casing and the second casing are
5 folded together.
